By selecting a particular value of Rc applicants have narrowed the claims to an acceptable scope.

Claim 14 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. "Prevention" of Alzheimer's disease is not enabled.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 and 9-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 2 at lines 8 and 10 two words in each are run together. Claims 9-11 depend from a canceled claim.

In claim 12 the third through the tenth species from the end are not within the scope of claim 1. See the definition of Rc.

Claim 13 is indefinite in reading on any possible method of making the compounds.

Claims 1 and 3-6 are deemed to be allowable.
